REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

Renumbered independent claims 1, 5, 8, 12, 15, 16, 18 and 19 among other things teach the limitations of "a terminal device having a control program; a server coupled to said terminal device, said server configured to transmit control data to said control program for controlling said terminal device and register three-dimensional model data representing said terminal device; a client coupled to said server, said client configured to receive and render said three-dimensional model data and to transmit to said server update three-dimensional model data for said rendered three-dimensional model data, said update data reflecting an operation on said rendered three-dimensional model data corresponding to an operation to be performed on said terminal device; wherein said server is further configured to receive said update data and transmit in response to receiving said update data, corresponding operation control data to said control program in order to effect remote control of said terminal device by said client" for remote controlling a system in a computer network environment. Further distinction has been made through dependent claims, arguments, and prior art rejections that there can be more than one client remote controlling the terminal device via manipulation of a rendered three-dimensional model representing the terminal device and that a customer support center employee can be one of the clients that support the terminal device. Virtual reality modeling language is specified also in a dependent claim that teaches a browser for replaying and displaying operational event data. The rendered three-dimensional data is also the data of the terminal device itself with status information and not the representative surrounding area.

The prior art does not teach the cited limitation.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
